

New course!

Can ecology help prevent antibiotic resistance?

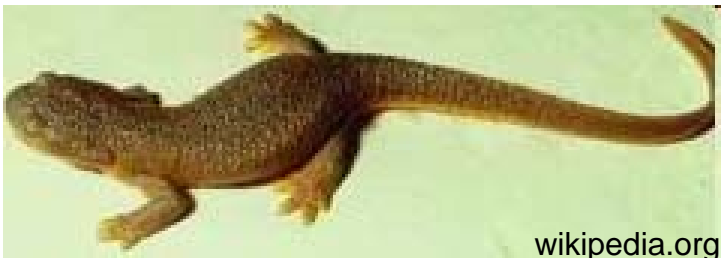

Population and Evolutionary Ecology

BIOL 4803/8803 (Special Topics)

3 credits, Tues/Thurs 1:30-3:00

Why does this newt produce enough toxin to kill 25,000 mice?

Why are these flowers different colors?

This course will provide an in-depth, discussion-based exploration of basic and applied topics in evolutionary and population ecology.
